

Shooting hoops just got a whole lot more fun!

### Product Description

Instantly turn a standard basketball hoop into a major attraction by adding the BattleBaskets scoring system, timer and LED-lit scoreboard

### Product Highlights

#### Competitive Challenges

The game is simple – race against the clock, scoring one point for every goal. Try to beat your personal best or take on your friends as you see how many baskets you can slam-dunk in 1 minute. The perfect challenge for 1v1 battles, team relays and party groups.

#### Shoot with Style

Basketball hoops feature in many indoor adventure and trampoline parks, but they're often underused. We've taken things up a level by adding an interactive backing surround, lights, sounds and a scoring system - kids (and adults) won't be able to stay away!

#### Easy to Use

The timer starts when the first goal is scored, then you've got 60-seconds to rack up points. Scoreboard displays time left and points scored, whilst the buzzer marks the end of the game - so minimal supervision is required.

#### Simple Retrofit Solution

BattleBaskets offers a simple upgrade solution for all indoor basketball hoops. Mount the scoreboard, sensor and optional LED graphics panel and your new feature attraction can be up and running in a few hours.

"An underused area of our park has been completely transformed. The lights and sounds really draw all our customers towards the area, and we can now run daily competitions which add extra value to any of our customers' visits"

- Assistant Manager, FlipOut Somerset

## Product Details

A single BattleBasket system includes one infrared hoop sensor, a scoreboard and an optional LED-lit graphic display to mount on top of the backboard.

Guidance will be given for new and retrofitted solutions.

Manufactured in Cornwall, UK

- » 1-minute timer
- » Built-in sound effects
- » Bright and durable LED graphic
- » LED-lit scoreboard and timer
- » Simple set-up and installation
- » Available in single and pairs

## BattleBaskets Game:

BattleBaskets challenges hand-eye coordination, throwing and catching skills, speed and accuracy in a fun and competitive way.

### Gameplay:

Begin the game by throwing the ball through the hoop; the starting sound will be heard and the internal LEDs on the score box and top mount (if applicable) will glow. Every time a point is scored, the LEDs will flash, a sound is heard and the score box will register the hit. At the end of the game the score flashes.

### Aim:

To score as many baskets as possible within the given time limit.

### Scoring system:

+1 point for each successful basket.

### Duration:

1 minute.

## Custom Graphics

BattleBaskets is available with a large LED-lit top graphic panel that really brings a hoop to life. Our standard BattleBaskets design is shown here.

For major partners and multi-site operators, customisable graphics are also available. Get in touch to find out more.

## Installation

The large LED-lit top graphic panel is attached to the top of the basketball backboard, and the shot sensor mounts under the hoop. The LED-lit scoreboard can be wall- or post-mounted to suit most installations.

## Specifications

**Installation:** BattleBaskets must be mounted to a suitable structure to support its weight and gameplay, fitted by a competent installer and assessed to be safe and fit for purpose.  
Keep indoors and dry.  
Avoid extreme fluctuations of temperature (optimum: 5°C to 30°C).

**Dimensions:** Box: 500 x 70 x 500 Top Mount: 1200 x 40 x 400

**Power Supply:** AC: 110-230V, 50-60Hz, 13A

**Regulatory Requirements:** CE Approved.

**Warranty:** 1 year on electronics. 3 years on all other parts.

**Other:** Top mount is an optional extra.
